S = Suspended

ARNP in Acute Care

Requested Granted

_____ () CATEGORY I ARNP

This status allows the applicant to perform the privileges granted by the governing body. It does not include membership or membership rights to the Medical Staff. The applicant is still subject to the bylaws, rules and regulations of the Medical Staff.

PRIVILEGE APPLICATION FORM - [Mercy Medical Center]

zz.ARNP, Category I,

Category I Activities

INITIAL CRITERIA:

To be eligible to apply for clinical privileges as a Category I Advanced Registered Nurse Practitioner, the applicant must meet the following criteria:

1. Successful completion of a post-master's degree in an acute care, family medicine, geriatric, pediatric, psychiatric or neonatal NP program accredited by the Commission on the Collegiate of Nursing Education (CCNE) or the National League for Nursing Accrediting Commission (NLNAC).
2. Current Certification by the American Nurses Credentialing Center or an equivalent body or be actively seeking certification and obtain the same on the first examination for which he/she is eligible.
3. Current active licensure to practice as an advanced practice registered nurse in the NP category in the state of Iowa.
4. Professional liability insurance coverage issued by a recognized company and of a type and in an amount equal to or greater than the limits established by the governing body.
5. Required previous experience: Applicants for initial appointment must be able to demonstrate provision of care, treatment or services reflective of the scope of privileges requested to at least 25 inpatients in the past 12 months, or completion of master's or post master's degree program in the past 12 months.

REAPPOINTMENT CRITERIA:

To be eligible to renew privileges as a Category I Advanced Registered Nurse Practitioner, the applicant must meet the following maintenance of privilege criteria:

1. Current demonstrated competence and an adequate volume of experience in 50 cases reflective of the acute care population served (i.e. inpatient, skilled nursing, home visits, hospice, etc.) with acceptable results in the privileges requested for the past 24 months based on results of ongoing professional practice evaluation and outcomes.
2. Evidence of current ability to perform privileges requested is required of all applicants for renewal of privileges.

AFFILIATION WITH MEDICAL STAFF APPOINTEE/SUPERVISION

The exercise of these clinical privileges requires a designated collaborating/supervising physician with clinical privileges at this hospital in the same area of specialty practice. All practice is performed under the supervision of this physician and in accordance with written policies and protocols developed and approved by the relevant clinical department or service, the Medical Executive Committee and the governing body. A copy of the collaborating agreement signed by both parties is to be provided to the hospital.

Date: Apr 2013, Oct 2014

PRIVILEGE APPLICATION FORM - [Mercy Medical Center]
